PEDRO PERES

SOFTWARE DEVELOPER

+351 911575323 | pedroperes.dev@gmail.com | linkedin.com/in/pmbperes | Lisbon, Portugal

PROFILE

Recent Computer Engineering graduate from FCT NOVA, with experience through academic projects and a professional internship. Familiar with full-stack development and modern tools. Built personal projects in Unity (C#), did freelance work and participated in game jams.

EDUCATION

Bachelor's Degree in Computer Engineering **2023-2026**
Faculty of Science and Technology, Nova University of Lisbon

PROFESSIONAL EXPERIENCE

Legau - Web developer intern **October 2025 - February 2026**

- Developed the Client Portal for Legau, a multi-tenant web application used by administrators of client organizations within the Legau platform. Enabled self-service management of users, groups, and usage analytics.
- Built full-stack features using Laravel (PHP) for backend services, Nuxt.js (Vue.js) for frontend development, MySQL for data management, and Docker for containerized environments.

Fiverr - Freelancer **2024**

- Developed small custom software projects for clients (C, Java, Python) and small game prototypes in Unity (C#).

PROJECTS

Praying Petals - Unity, C# **June 2026**

- 2nd place at 2D GAME JAM #REBORN (theme: Invisibility & You are the enemy), a one-week game jam. Published on rovkin.itch.io.
- Flower shop simulator where you trim flowers, serve clients, and hide from threats, playing as a mantis shopkeeper who is secretly the parasite.

SKILLS

- **Languages**: JavaScript, PHP, Python, Java, C#, C
- **Technologies**: Nuxt.js (Vue.js), HTML, CSS
- **Backend**: Laravel, REST APIs, MySQL
- **Tools**: Unity, Git, Linux, Docker
